The exhibition is the result of a **“Peri-urban photography competition”** organised in 2012 by the PURPLE network. **The exhibition** shows 25 pictures out of a total of 150.

These pictures do tell interesting - and somehow complex - stories about peri-urban spaces, showing **urban mixed with rural** features. **Peri-urban spaces** (located around and between Europe’s cities) provide vital resources which support Europe’s urban populations and enhance the quality of life of city dwellers. The pictures capture the huge variety of landscapes and activities seen in peri-urban areas.

In the context of this exhibition about **“EUrban solutions”**, long term sustainability in all its aspects - economic, social and environmental - is a shared challenge for Europe’s cities together with their peri-urban neighbouring peri urban areas.
